

Letter from Obert Maguvhe to Vernon Jacobs

20071003

Hi Vernon

My email strives to indicate that when the non-disabled would be acquiring pre-reading skills, the blind should also be made ready by being engaged in those activities so that when learning to read and write takes place, they are ready and well developed.

I think instead of meeting DEFSA only, we should sell the literacy campaign initiative to South African Federal Council on Disability member organisations because they will also help us not only with teachers but with mobilisation of learners as well. Some of these organisations also have facilities that we could also use for the campaign.

We need to urgently hold a meeting with the organisations for the disabled and they are: DPSA, SANCB, SANEL, CANSA, DEAFSA, DICAG, DSSA, SASMH, ASA, NCPPDSA, QASA, NDPCP and SANCA.

I think it should be one day meeting so that we know how they will assist us and how the campaign could meet different needs.

Dr. Obert Maguvhe

Specialist & Co-ordinator Education Support Services

South African National Council for the Blind
